

ABOUT SECURE IP TELECOM, INC.

Secure IP Telecom, Inc. (SIPT) is a company formed under the laws of California and is a registered carrier with the FCC.

The Company holds the FRN/CORES ID Number: 0015031529 and a 499 Filer ID Number: 826455. It has been in business for over 17 years providing international calling to wholesale business customers in the United States. In addition, it resells USA domestic termination to international cellular companies in Central America.

Secure IP Telecom, Inc. is a reseller with facilities and an SBC. We resell products and services of the companies referenced in the latter section of this document. And it is those carrier partners who provide the proper call Attestation for all of its USA terminated calls.

MEASURES TAKEN TO PREVENT ORIENTATION OF ILLEGAL CALLS

Knowing Your Customer:

SIPT has foreign/international CELLULAR phone carriers that we provide USA domestic call termination for, making us a gateway provider. The Company has direct interconnection agreements with these carriers. Their calls always display the A.) foreign telephone number of that carrier's subscriber or B.) the telephone number of a ROAMING subscriber from a different country (which may also include US subscribers).

All other wholesale customers that SIPT provide services to terminate their US Domestic-originated calls only to other foreign countries, e.g., International Long Distance. Robocall Mitigation does not apply to them as none of its other wholesale customer's calls terminate in the USA.

STIR/SHAKEN Implementation

The Company has no defined implementation related to STIR/SHAKEN and the parameters of call authentication framework.

The Company receives no calls that originate in the USA and then terminates in the USA.

Secure IP Telecom is exempt from STIR/SHAKEN implementation because we provide services to only foreign/international direct-interconnected CELLULAR CARRIERS. These carrier's wireless subscribers and roaming customers originate cellular calls in the foreign country and terminate those calls in the USA. The cellular subscriber or roamer can not alter/spoof their ANI/Caller ID. We do not have any other customers that terminate calls in the USA.

NETWORK MONITORING AND CALL BLOCKING

The Company will rely on its underlying carrier partners to give notice if robocalls are detected.

The Company will work with its underlying service providers to block calls originating from its customers if necessary. The Company will issue a request to the underlying carrier to block illegal calls if the need ever arises.

TRACEBACK AND INQUIRY & RESPONSE

The Company commits to respond to all inquiries made by the FCC, law enforcement, the ITG and/or any other like or similar governing body within 24 hours of initial request. The Company is committed to combating robocalling and other nefarious acts and violators of the TCPA. Therefore the Company shall always fully cooperate with these groups to investigate and stop any illegal activity and persons who try to commit such bad acts from using Company's service to carry or process illegal calls.

When notified by any agency, the ITG, any regulatory governing concern and/or the FCC's Enforcement Bureau, Company immediately direct its underlying provider to block and report identified illegal traffic, and any substantially similar traffic, on an ongoing basis (unless Company's investigation determines that the traffic is not illegal).

If and when the Company determines that the identified traffic is not illegal, Company shall provide the Enforcement Bureau with an explanation as to why Company reasonably concluded that the identified traffic is not illegal, and what steps it took to reach that conclusion.

UPSTREAM PROVIDERS AND CALL ASSIGNMENT

The Company is a gateway Provider and deals only with wireless cellular Foreign Service Providers for US domestic call termination. The Company utilizes the facilities of these carriers and does not have their own local switch.

The US Domestic carriers upon which the Company relies are listed below. Since the Company does not carry its own traffic (or calling volume on its own network) the entities the Company relies on for complete networks services are:

Onvoy LLC d/b/a Inteliquent 550 W Adams Street, Suite 900 Chicago IL 60661 Email: Legal@inteliquent.com	7G Networks, Inc. 4906 Via Cupertino Camarillo CA 93012 Email: ron@7gnetwork.net
Lingo Telecom, LLC dba Impact Telecom 9330 LBJ Freeway, Suite 944 Dallas, TX 75243	Computer

COMPANY DECLARATION

The Company notified its underlying carriers to block any originating number(s), terminating numbers(s), trunk(s) or customer, including termination of customer relationship to prevent robocalling, invalid originating number or spoofed origination number transiting the Company's networks. The Company certifies that it has never been under investigation or committed any violations within the last two years with any local, state, or Federal agency or equivalent related to telemarketing or robocalling. Additionally, the Company is not currently subject to a formal action or investigation due to suspected unlawful robocalling or spoofing.

If and when, as the Company business may change, the Company will update this Robocall Mitigation Plan as appropriate.
