

*The following documentation is to serve as proof of Van Horne Cooperative Telephone Co
(Company Name) robocall mitigation efforts in compliance with the Traced Act.*

Robocall Mitigation Efforts: Long Distance Traffic

Aureon, an end-to-end technology solutions organization, provides a Caller Identification Authentication (CIDA) service which includes Outbound Shield technology. This Outbound Shield uses a curated list of high-risk phone numbers and detects invalid numbers. If the calling number has been reported as spam, the calling number will be prevented from completing outbound calls.

I, Kerry Lee Less (name), verify that Van Horne Cooperative Telephor (Company Name) utilizes the aforementioned Caller Identification Authentication (CIDA) service to mitigate unlawful robocalling for long distance traffic.

Date: June 8, 2021

Robocall Mitigation Efforts: Local Traffic

I, Kerry Lee Less (name), verify that Van Horne Cooperative Telephor (Company Name) utilizes the below robocall mitigation efforts for local traffic.

Description of robocall mitigation efforts in place:

We run traffic reports daily on Local, EAS, and Long Distance to see if there is an increase in traffic.
