

PARKER FIBERNET, LLC
ROBOCALL MITIGATION PLAN
revised 4.18.24

<u>NAME</u>	Parker FiberNet, LLC
<u>ADDRESS</u>	P.O. Box 688 10005 Commerce Street Summerville, Georgia 30747
<u>ROBOCALL MITIGATION CONTACT</u>	Kristy Parker, VP Finance 706-857-4646 kristy@parkersystems.net

BACKGROUND

Parker FiberNet, LLC (“Parker”) is a small voice provider with fewer than 100,000 voice subscriber lines. Additionally, Parker purchases its voice services wholesale from Momentum Telecom, Inc. (“Momentum”) and, accordingly, has no ability or authority to directly implement the STIR/SHAKEN framework the applicable IP network. Via this Robocall Mitigation Plan, Parker publicly certifies its commitment to implementing the mitigation practices outlined below in an effort to prevent unlawful robocalls.

MITIGATION PRACTICES

1. Upstream Service Agreements

Parker purchases its IP voice services wholesale from Momentum Telecom, Inc. Recently, Parker and Momentum executed an amendment to the services wholesale agreement between the two parties which specifically addresses robocall prevention, and whereby Parker participates in Momentum’s traceback efforts and requests. Parker agrees to similarly amend its services agreements with all existing and future upstream providers to address robocall and traceback issues and ensure its voice service providers have Robocall Mitigation Plans in place and/or are compliant with the TRACED Act directives and Stir/Shaken authentication framework.

2. Robocall and Traceback Monitoring and Compliance

Parker has created a specific job responsibility within its staff to monitor and ensure Parker’s internal compliance with ongoing robocall mitigation efforts and directives. Parker’s Senior

Provisioning Agent will serve as Parker's primary contact for customer complaints in connection with robocalling issues and will work closely with Momentum to resolve any robocall and traceback issues.

3. Industry Traceback Participation

Parker participates in The Industry Traceback Group, a trade association working to encourage robocall mitigation and non-IP call authentication solutions.

4. Alternative Robocall Mitigation Methodologies

Parker subscribes to call blocking services from Momentum.
