

Sagebrush Cellular, Inc ROBOCALL MITIGATION PLAN

Sagebrush Cellular, Inc (Sagebrush), Operating Company Numbers (443B, 843H), is eligible for the continuing extension of the STIR SHAKEN implementation deadline as a small voice service provider (§64.6304 (a)(2) that has non-IP portions within its network §64.6304(d).

Sagebrush provides local service to fewer than 100,000 voice subscriber lines. The majority of the customers are served on the non-IP portions of Sagebrush's network which relies on technology that cannot initiate, maintain, carry, process, and terminate SIP calls.

To meet the non-IP network criteria for the continuing STIR SHAKEN extension (§ 64.6303 (a)(2)), Sagebrush is a member of NTCA and WTA – Advocates for Rural Broadband. NTCA and WTA – Advocates for Rural Broadband participates on the ATIS Non-IP taskforce working group which developed the (ATIS Solutions) non-IP call authentication solutions. NTCA and WTA – Advocates for Rural Broadband are serving as Sagebrush's third party representative on the ATIS Non-IP taskforce working group.

Sagebrush also originates calls via SIP connections within its network. Sagebrush has registered with the Policy Administrator and is an authorized service provider in the STIR|SHAKEN ecosystem. Sagebrush has implemented STIR|SHAKEN within its IP-network and signs the calls originating on the IP portions of Sagebrush's network.

Robocall Mitigation Plan

All voice traffic that originates on Sagebrush's network is subject to the following Robocall Mitigation Plan.

Call Analytics & Enforcement

Sagebrush uses TNS Call Guardian analytics technologies and services to monitor traffic on its network and identify potentially unlawful call origination activity.

Sagebrush blocks the following types of calls by default:

- Calls originating from invalid numbers
- Calls originating from DNO numbers

If Sagebrush has a reasonable basis to believe that a customer is originating illegal robocalls, it will require the customer to remedy the problem and, if effective action is not taken, Sagebrush can suspend and/or terminate service to the customer.

Know your Customer - Customer Due Diligence

Sagebrush conducts due diligence on new and renewing customers, confirming the customer's identity and, if it is a business, its incorporation documents. The Company confirms the customer's service address for all customers.

- Sagebrush verifies customer's credit history and business reputation prior to providing service.
- Sagebrush verifies customer information when contracts are renewed, or services are added.
- Sagebrush verifies the customer's identity and their right to use the telephone number presented on calls.
- Sagebrush has policies that define the circumstances by which it will deny, suspend or terminate service to a customer.

Upstream Provider Knowledge

Sagebrush knows all the carriers from which it receives traffic and has confirmed that all of the carriers are listed in the Robocall Mitigation Database. Sagebrush has also reviewed the connected carrier's RMPs to learn how the carriers monitor their originating traffic to mitigate illegal robocalls. In addition, Sagebrush is now incorporating traceback and prohibited traffic language in all contractual agreements with upstream carriers.

Role In the Call Chain

Sagebrush is a voice service provider with a STIR/SHAKEN implementation obligation on the IP-Portions of its network. Sagebrush is also a voice service provider without a STIR/SHAKEN obligation on the Non-IP portions of its network because that portion of the network relies on technology that cannot initiate, maintain, carry, process, and terminate SIP calls.

Traceback

Sagebrush commits to respond fully, within 24 hours, to all traceback requests from the FCC, law enforcement, and the industry traceback consortium, and to cooperate with such entities in investigating and stopping illegal robocallers that use its service to originate, carry, or process illegal robocalls.

Robocall Mitigation Database Eligibility

Sagebrush has not been involved in any recent, formal law enforcement or regulatory investigation into suspected unlawful robocalling.

Sagebrush has not been prohibited from filing in the Robocall Mitigation Database (RMD).

Customer Education

Sagebrush posts information on its website to educate customers on how to protect themselves from becoming a victim of unlawful robocalls and a process to report complaints related to robocall activity.
