

Preferred Long Distance, Inc.

Caller ID Authentication Plan

Updated February 10, 2026

I. Introduction.

Preferred Long Distance, Inc. dba Telplex Communications, dba Telplex, dba RingPlanet Communications dba RingPlanet ("Preferred"), Federal Registration Number [0003757473](#), pursuant to Sections 64.6301 and 64.6305 of the Commission's rules, 47 C.F.R. §§ [64.6301](#), [64.6305](#) and the Commission's "Best Practices"¹ as amended² adopts this Caller ID Authentication ("Plan"). This Plan is current as of its submission date and may be subject to change as necessary to further comply with amended Commission regulations and requirements.

II. Corporate Information.

The name, title, department, business address, telephone number, and email address of one person within the company responsible for addressing robocall mitigation-related issues is:

Keith Nussbaum
Senior Executive Vice President
Preferred Long Distance, Inc.
16830 Ventura Boulevard, Suite 350,
Encino, California 91436
Telephone: (818) 380-9090
Email: keith@preferredlongdistance.com

Preferred is a privately-owned corporation. Preferred's individual owners and principals are Jerome Nussbaum, Chief Executive Officer, and Keith Nussbaum, Senior Executive Officer. Preferred has no affiliates, has no subsidiaries, and is not owned by any other entity. The Company's principals exert full control over Preferred's operations

Preferred operates under the assumed names Telplex Communications, dba Telplex, dba RingPlanet Communications dba RingPlanet.

Preferred provides non-facilities-based local, intrastate, interstate, and international wireline and wireless telecommunications and Internet Protocol enabled services, and enhanced services to commercial and residential subscribers.

II. Company Information, Continued

Preferred is not a foreign voice service provider, is not an intermediate or gateway provider, does not serve subscribers who are physically located outside of the U.S., and does not act as a wholesale provider originating calls on behalf of another provider or providers. Preferred does not maintain an operating company number and does not have direct access to telephone numbers from the North American Numbering Plan Administrator (NANPA) and/or the National Pooling Administrator.

III. Exemption.

Preferred falls under a plain language definition of a Small Voice Service Provider serving less than 100,000 voice service subscriber lines, pursuant to Section 64.6304(a)(2) of the Commission's rules, [47 C.F.R. § 64.6304\(a\)\(2\)](#), albeit lacks control over network infrastructure necessary to implement STIR/SHAKEN.³ Preferred is currently incapable of obtaining a Service Provider Code ("SPC") token due to Governance Authority policy and is exempt from the requirements of [Section 64.6301](#) until it is capable of obtaining a SPC token as set forth in Section 64.6304(b) of the Commission's rules, 47 C.F.R. § 64.6304(b). As a non-facilities-based service provider, Preferred must defer to its underlying carriers regarding interconnection with upstream providers, and its underlying carriers' analytics to block illegal traffic that may originate with upstream providers.

IV. Certification

Preferred certifies that it has not been prohibited from filing in the Robocall Mitigation Database. Preferred certifies that it independently reviews its underlying carrier subscriber traffic analytics and does not separately engage a third-party analytics provider. Preferred certifies further that it has not been subject to a Commission, law enforcement, or regulatory agency action or investigation due to suspected unlawful robocalling or spoofing. And Preferred certifies that at no time during the prior two years, has Preferred been the subject of a formal Commission, law enforcement, or regulatory agency action or investigation with accompanying findings of actual or suspected wrongdoing due to transmitting, encouraging, assisting, or otherwise facilitating illegal robocalls or spoofing, or a deficient Robocall Mitigation Database certification or mitigation program description.

Preferred will ensure that it will update company information contained in the Commission Registration System (CORES) within ten business days from the date when information changes to reflect up-to-date Company information. Further, pursuant to Section 64.6305(h) of the Commission's rules, 47 C.F.R. § 64.6305(h) Preferred affirmatively certifies and will recertify annually, that any information submitted to the Robocall Mitigation Database is true and correct on or before March 1.

³ *Call Authentication Trust Anchor, Implementation of TRACED Act Section 6(a)—Knowledge of Customers by Entities with Access to Numbering Resources*, WC Docket Nos. 17-97 and 20-67, *Report and Order and Further Notice of Proposed Rulemaking*, 35 FCC Rcd 3260 (Mar. 31, 2020) (First Caller ID Authentication Report and Order and Further Notice), para. 40.

V. Robocall Mitigation Plan

This Robocall Mitigation Plan addresses the steps Preferred has implemented to eliminate unlawful calls originating on its network, in compliance with applicable Commission rules including:

- Know Your Customer
- Telephone Number Validation
- Network Traffic Monitoring, Analysis, and Investigation
- Do-Not-Originate List
- Refusing Traffic from Unlisted Providers
- Cooperation with the Commission, Industry Traceback Consortium, and Law Enforcement Agencies

Know Your Customer. Preferred fully vets all subscribers before providing service to the subscriber. Preferred obtains specific subscriber information including service locations and principals, if commercial subscribers, and verifies location for all subscribers. Further, Preferred compares information provided by the subscriber against underlying carrier records to verify accuracy and authentication and validate subscriber information. Subscribers are served under a service agreement.

Preferred monitors its subscribers' traffic for call, originating number and terminating number irregularities in conjunction with its underlying carriers, and should irregularities be determined, will immediately contact the subscriber as part of its investigatory process. Preferred does not grant, nor can it grant, right-to-use telephone number resources.

Telephone Number Validation. For new subscribers, Preferred will assign telephone numbers to the account, unless the account has ported from another subscriber. Preferred will ensure that only those subscriber telephone numbers held by its subscribers may originate traffic. For toll-free numbers, Preferred will verify the underlying ten-digit number and ensure that only calls from the assigned numbers may originate calls.

Network Traffic Monitoring, Analysis and Investigation. Consistent with its commitment above, Preferred will respond fully to all traceback requests from the Commission, law enforcement, and the industry traceback consortium as soon as possible and at no time exceeding 24 hours from the time of the request and will cooperate with such entities in investigating and stopping any illegal robocallers that use its service to originate calls.

As a non-facilities-based voice service provider, Preferred coordinates with its underlying carriers to monitor Preferred's subscribers' traffic, identify traffic anomalies including, but not limited to, unusually high call volumes to different telephone numbers and disparate geographic areas, over the course of one or more hours, for which Preferred will investigate, and to immediately block subscriber service if robocalling is suspected. Preferred does not separately engage a third-party analytics vendor. Confirmation of illegal activity and more than one violation will result in immediate subscriber service termination.

V. Robocall Mitigation Plan, Continued

Network Traffic Monitoring, Analysis and Investigation, Continued

The Company reserves the right to refuse traffic from any party at any time where robocalling or use of originating numbers that are not valid or they are not authorized to use has occurred or is suspected. The Company is able to block the originating number(s), terminating numbers(s), trunk(s) or customer, including termination of customer relationship to prevent robocalling, invalid originating number or spoofed origination number transiting the Company's networks.

Do-Not-Originate List. Preferred compiles a reasonable Do Not Originate (DNO) list. Preferred's DNO list excludes numbers that are deemed unreasonable for purposes of call origination in accordance with the criteria established pursuant to 47 C.F.R. § 64.1200, as they are discovered. Preferred utilizes internal tools to check for DNO numbers by detecting invalid phone number formats, area codes and unassigned number blocks. The Company also utilizes call data analytics to detect and investigate irregular and unexpected calling patterns, originating number use against customer profiles. The Company uses data systems for analytics and reviews to identify illegal robocalling in addition to subscriber vetting. The identification process includes invalid phone number formats, area codes and unassigned number blocks. The Company also utilizes data analytics to detect and investigate irregular and unexpected calling patterns, originating number use against customer profiles. The Company uses data systems for analytics and reviews to identify illegal robocalling in addition to subscriber vetting.

Refusing Traffic from Unlisted Providers. In conjunction with its underlying carrier, Preferred refuses to accept traffic from unlisted and de-listed providers from the Commission's Robocall Mitigation Database.

Cooperation with the Commission, Industry Traceback Consortium, and Law Enforcement Agencies. Preferred avers to respond fully and in a timely manner to all traceback requests from the Commission, law enforcement, and the industry traceback consortium within twenty-four (24) hours,⁴ and to cooperate with such entities in investigating and stopping any illegal robocallers that use Preferred's service to originate calls.

If following internal investigation and investigation in conjunction with the industry traceback consortium, Commission, and/or law enforcement agencies, Preferred confirms that any subscriber has engaged in – or allowed the engagement of – robocalling, Preferred will immediately terminate its provision of service as a violation of its Acceptable Use Policy, and inform the Commission and Trust Anchor of the identity of the former subscriber and telephone numbers that were involved.

⁴ Pursuant to 47 C.F.R. § 64.1200(n)(1) as clarified by the Commission.

VI. Commitment.

Pursuant to Section 64.6305 of the Commission's rules, 47 C.F.R. § [64.6305](#), Preferred commits to take all such *reasonable steps* to avoid originating illegal robocall traffic and shall include a commitment to respond fully and in a timely manner to all traceback requests from the Commission, law enforcement, and the industry traceback consortium, and to cooperate with such entities in investigating and stopping any illegal robocallers that use its service to originate calls..

Preferred, in conjunction with its underlying carriers, will implement a call authentication protocol for voice calls delivered over the non-IP portions of its network that do not use SIP technology when such a protocol is fully developed and finalized by industry standards and the necessary equipment and software is available on the commercial market.

Preferred will ensure that it will update company information contained in the Commission Registration System (CORES) within ten business days from the date when information changes to reflect up-to-date Company information Further, pursuant to Section 64.6305(h) of the Commission's rules, 47 C.F.R. § 64.6305(h) Preferred affirmatively certifies and will recertify annually, that any information submitted to the Robocall Mitigation Database is true and correct on or before March 1.

Preferred anticipates that its Plan will evolve as it makes Plan enhancements, as underlying carriers enhance their own plans, and as the Trust Anchor and industry generally gain experience in caller ID authentication protocols.

Preferred avers to update its plan within ten business days from the date of any Plan changes.
