Roy Shiro, Switching Manager

Wireless Department:

210 W. 2nd Street, Broken Bow OK 74728

580-584-3300; royshiro@pinecellular.com

Pine Cellular has implemented the STIR/SHAKEN authentication framework for all calls on the IP portion of its network.

All calls that originate on Company's network are subject to the attached Robocall Mitigation Plan.

Pine Cellular has never been the subject of a formal Commission, law enforcement, or regulatory agency action or investigation with accompanying findings of actual or suspected wrongdoing due to transmitting, encouraging, assisting, or otherwise facilitating illegal robocalls or spoofing, or a deficient Robocall Mitigation Database certification or mitigation program.

Pine Cellular has not been prohibited by the Commission from filing in the Robocall Mitigation Database.

Pine Cellular commits to cooperate with the Commission, law enforcement, and the industry traceback consortium in investigating and stopping any robocallers that use our service to originate unlawful robocalls. Pine Cellular will respond fully, within 24 hours to all traceback requests from the Commission, law enforcement, and the industry traceback consortium.

I, Lee Brown, Chief Technology Officer, for Pine Cellular, submit this certification on behalf of the Company, which has implemented the STIR/SHAKEN authentication framework as indicated in the Robocall Mitigation Database.

Pursuant to section 1.16 of the FCC's rules, I certify, under penalty of perjury that the information and statements contained herein are true and correct to the best of my knowledge and belief.

A handwritten signature in cursive script, appearing to read "Lee Brown", is written over a horizontal line.

Robocall Mitigation

Pine Cellular has taken specific reasonable steps to avoid carrying or processing illegal robocall traffic. Pine Cellular reserves the right to modify and/or supplement its robocall mitigation plan to adapt to risks and to improve the overall effectiveness of its program.

Pine Cellular uses call analytics software provided by Affinity Network, Inc. (ANI), USA Digital Communications, and Sinch (collectively, the Monitors). Personnel of the Monitors screen the network to identify and mitigate any irregular traffic patterns to reduce fraudulent and/or illegal robocall traffic. When they identify potentially fraudulent, abusive, suspicious, or robocalling traffic patterns; they act swiftly to mitigate this activity. Mitigation includes blocking or rejecting known fraudulent/abusive traffic or invalid calling numbers utilizing the appropriate Session Initiation Protocol (SIP) response codes; blacklisting a known abusive number; tracing the call traffic back to the originating party; and reporting instances of irregular traffic activity to our carrier customer. If the Monitors alerts Pine Cellular of suspicious activity, the Company will consider the cause and take action to remediate consistent with our Acceptable Use Policy (AUP), which prohibits utilizing our network for deceptive purposes, engaging in fraudulent activities, and violating local, state, or federal laws. Violators of may be warned to stop the suspicious or unlawful activity and their service may be suspended or terminated.

Know-Your-Customer. Pine Cellular vets new and renewing customers. We will confirm the identity of new or renewing residential and business customers by collecting identifying information including, as applicable, SSN, date of birth, contact person for the business, physical address, state and/or country of incorporation, and federal tax ID. New customers requesting an excessive number of call paths will be screened for legitimate usage needs. New and existing customers with an excessive number of call paths will receive robocall outreach and education materials.

All residential and business customers are only able to place calls originating from their own phone number.

Caller ID and call records are reviewed when service is installed to verify legitimate caller ID information.

Know-Your-Upstream Provider. Pine Cellular knows all carriers from which it receives traffic. Pine Cellular has confirmed that all connected providers are listed in the Robocall Mitigation Database.

Traceback. We will respond fully and in a timely manner to all traceback requests from the Commission, law enforcement, and the industry traceback consortium, and cooperate with such entities in investigating and stopping any robocallers that use our network to originate robocalls.
