

In order to prevent our service from being used to make automated mass calls in the United States

of North America, the following measures have been taken:

- 1) We will not allow more than two simultaneous calls on the same account to said destination.
- 2) We will not allow more than 100 daily calls from the same account to that destination.
- 3) We will not allow more than 1 call-setup per minute from the same account to said destination.
