

Robocall Mitigation Steps

Par Infinity Ltd. has established a robocall mitigation program in order to curb the origination of illegal robocalls from its network.

We will comply and cooperate with traceback requests received from carriers and law enforcement.

Par Infinity Ltd has implemented various steps to detect any kind of potentially fraudulent traffic like robocalls:

- 24x7 Monitoring to block spam/suspicious calls.
- Blacklisting of fraudulent customers.
- Implementation of Know your customer.
- Active monitoring of Invalid ANI's and reporting to the customer.

Best Regards,
Par Infinity Limited
