

Dear Sirs,

TeleBermuda International Limited (TBI) has No STIR/SHAKEN implementation – Performing Robocall Mitigation. We certify that we commit to respond to all traceback requests from the Commission, law enforcement, and the industry traceback consortium; and to cooperate with such entities in investigating and stopping any illegal robocallers that use our service to originate calls.

All voice traffic that originates on our network is subject to credit limits, preventing high volumes of fraudulent traffic.

We plan to implement STIR/SHAKEN protocols with our next system release later this year. Information regarding this release can be found via the link below.
