This is to certify that Advanced Messaging Services does not own a telephony network. We only utilize Stir/Shaken certified providers. We only send originating traffic to legitimate vetted customers over these compliant network providers.

Advanced Messaging Services is primarily an enhanced messaging service provider. Messages received are delivered via several mediums. Less than 5% are "telephony" delivered. In those cases, we send these calls out to our vetted customers over compliant telephone network providers.

CURRENT NETWORK PROVIDERS:
