

RE: One40 Telecom, LLC's Robocall Mitigation Plan

1. One40 commits to respond to all traceback requests from the Federal Communications Commission, law enforcement and the industry traceback consortium and to cooperate with such entities in investigating and stopping any illegal robocallers from using its services to originate calls, and that all of the voice traffic that originates on its network is subject to this robocall mitigation program.
2. One40 screens all applicants for its services to determine if they are intending to use such services for autodialing from a database of numbers for purposes of telemarketing without having received written permission from the called parties. Calls to wireline numbers for purposes of political campaigning, market research or polling are deemed legal.
3. One40 requires by terms of service and acceptable use policy that all users of its services comply with applicable laws prohibiting illegal robocalling and providing for blocking and/or termination of services for those that breach such provisions.
4. One40 continuously monitors calling patterns in and out of our network to One40 fraudulent traffic, including robocalling, traffic pumping, and international toll fraud. One40 will block services to a customer if it determines that the customer is using the services for any illegal activities, including robocalling. Such customer's agreement will be terminated if the violation is determined to be intentional.
5. One40 will only accept traffic for termination from companies that are in the Robocall Mitigation Database after September 28, 2021.
6. One40 severely limits the capabilities of new accounts until the new customer completes a verification process that includes a live phone call with a support representative to confirm that the customer is who they say they are and represent the company they have signed up on behalf of.

If there are any questions or concerns regarding this plan, please contact my office.

Thank you,

Adam Gamwell
Chief Executive Officer
One40 Telecom, LLC.
