

# **Robocall Mitigation Plan**

(Revised 12-11-2024)

The following policies apply to all customers and/or prospective customers of InterLynx, LLC, and comprise our Robocall Mitigation Plan to avoid originating illegal robocall traffic from our network:

## **1. CONTRACT REQUIREMENT**

Our agreements clearly prohibit passing illegal robocalls. Customers who violate these rules are subject to immediate termination without notification. If INTERLYNX believes illegal traffic has been passed through its network, the customer sending such traffic forfeits confidentiality, and all data will be shared with industry partners and law enforcement as required by regulatory bodies.

## **2. CUSTOMER DISCLOSURES AND CONFIRMATION**

All customers are required to disclose certain information about their business such as physical location and contact personnel. They must also disclose the practices and nature of their business. We endeavor to know the precise type of traffic which originates from each customers. INTERLYNX targets specific types of customers, limiting risk of improper traffic. INTERLYNX investigates each Customer's claims to verify accuracy before accepting them as a customer.

## **3. MONITORING AND TRACEBACK**

INTERLYNX monitors its system diligently and will investigate any suspicious traffic. We act promptly when we detect traffic which appears to be robocall activity to ensure it has been preauthorized as "legal" (i.e. authorized political, non-profit, reverse 911 or fully opted-in traffic). In the event INTERLYNX receives a Traceback request for an illegal robocall, we act on it immediately, request a specific and detailed explanation from our customer(s) and insist on immediate corrective action. We timely respond to all Traceback request from authorities. If corrective action is not timely provided by our customer, INTERLYNX takes whatever action is necessary to prevent recurrence of the event(s).

## **4. PUBLICATION AND NOTIFICATION**

INTERLYNX will publish in the public section of its website (when such website is developed) this Robocall Mitigation Plan and further, will pro-actively notifies all customers of such policy along with keeping a record of such notifications.

## **5. FOREIGN SOURCES OF TRAFFIC**

INTERLYNX does not currently have, but may have in the future, non-USA customers. We take extra precautions relative to non-USA customers to ensure they meet all requirements of this Robocall Mitigation Plan. Prior to authorizing a foreign customer for calling privileges, we verify all information requested.

## **6. CALL BLOCKING**

INTERLYNX, through our provider(s), blocks all calls originating from numbers known to us to send illegal robocall traffic and/or calls destined to specific phone numbers as appropriate for robocall mitigation.

## **8. LAW ENFORCEMENT COOPERATION**

INTERLYNX cooperates fully with investigative authorities, industry traceback groups, the FCC and the official consortium designated to lead private traceback efforts. We have a single contact individual designated to handle all traceback requests and coordinate with outside investigations.
