## **Robocall Mitigation**

- ☐ SRS Pharmacy Systems Inc. has two Upstream Providers
- ☐ Both providers, infoBip (formally Peerless networks) and Bandwidth.com perform all STIR/SHAKEN signing for our organization.
- ☐ SRS Pharmacy Systems Inc is in sole control of our End User's endpoints.
- ☐ SRS Pharmacy Systems Inc's End Users cannot modify their PBX installed by SRS in anyway, therefore setting up automatic outbound calling (Robocalling) or modifying their Caller-ID (call-id spoofing) is not possible by the End User.

Justin McCoy
