MEASURES TO PREVENT ORIGINATION OF ILLEGAL CALLS:

Know Your Customer:

Quick Copper has a rigorous KYC policy for the in order to support the Business Customers that it sells and resells services to. Quick Copper has an in-depth presales process where representatives of Quick Copper work with the prospect or customer to understand all the unique factors of the Customer's business. This objective of this is twofold: a. to get to know the customer; and b. to provide the best possible service to the customer by fully understanding all facets of their business.

Quick Copper performs a thorough credit check on each of its customers and verifies the following information: legal business name, legal form of business, federal tax ID, nature of the business, primary contact person, and service address.

Not only does Quick Copper have a rigorous intake and Onboarding process where it secures extensive information for Customers but all relationships between Quick Copper and customers are governed by an MSA which specifically states the business Customer is not able to resell any services which Quick Copper resells and the services which are sold to the Customer are strictly for the Customers own internal use.

Quick Copper performs a thorough credit check on each of its customers and verifies the following information: legal business name, legal form of business, federal tax ID, nature of the business, primary contact person, and service address.

STIR/SHAKEN Implementation

Quick Copper has no defined implementation related to STIR/SHAKEN and the parameters of call authentication framework. As a reseller with no switch Quick Copper is not able to implement

QUICK COPPER COMMUNICATIONS, LLC - ROBOCALL MITIGATION PLAN

STIR/SHAKEN in any manner. Since Quick Copper lacks control over the facilities and network infrastructure necessary to implement STIR/SHAKEN; since Quick Copper has no defined protocols in place. Quick Copper relies on the two named carriers in this Robocall Mitigation Plan to provide level A attestation to all Company calls and validate all numbers.

Therefore, Quick Copper is excluded from the FCC's STIR/SHAKEN implementation obligation pursuant to paragraph 40 of the FCC's First Call Authentication Report and Order. Alternatively, Quick Copper relies on its underlying carrier partner(s), which own and maintain the network infrastructure, to implement and utilize STIR/SHAKEN authentication.

In relationship to the initial, and subsequent FCC Orders concerning STIR/SHAKEN and the Robocall Mitigation Database (RMD), Quick Copper is without STIR/SHAKEN obligation.

NETWORK MONITORING AND CALL BLOCKING

Quick Copper will rely on its underlying carrier partners to give notice if robocalls are detected.

Quick Copper will work with its underlying service providers to block calls originating from its customers if necessary due to fraudulent activity. Quick Copper will issue a request to the underlying carrier to block illegal calls.

TRACEBACK AND INQUIRY & RESPONSE

Quick Copper commits to responding to all inquiries made by the FCC, law enforcement, the ITG and/or any other like or similar governing body within 24 hours of initial. Quick Copper is committed to combating robocalling and other nefarious acts and violators of the TCPA therefore Quick Copper shall always fully cooperate with these groups to investigate and stop any illegal activity and people who try to commit such bad acts from using Company's service to carry or process illegal calls.

When notified by any agency, the ITG, any regulatory governing concern and/or the FCC's Enforcement Bureau, Company immediately direct its underlying provider to block and report identified illegal traffic, and any substantially similar traffic, on an ongoing basis (unless Company's investigation determines that the traffic is not illegal).

If and when Quick Copper determines that the identified traffic is not illegal, Company shall provide the Enforcement Bureau with an explanation as to why Company reasonably concluded that the identified traffic is not illegal, and what steps it took to reach that conclusion.

QUICK COPPER COMMUNICATIONS, LLC - ROBOCALL MITIGATION PLAN

UPSTREAM PROVIDERS AND CALL ASSIGNMENT

Through its two upstream providers Quick Copper resells and leverages the network of other carriers. Quick Copper has no switch and does not provision its own traffic.

Quick Copper utilizes the full facilities of these two carriers and does not have their own switch. Quick Copper is not an Intermediate or gateway Provider, and it does not deal with any Foreign Service Providers.

The carriers upon which Quick Copper relies upon are listed below. Since Quick Copper does not carry its own traffic (or calling volume on its own network) the entities Quick Copper relies on for complete networks services are:

Sangoma FKA Voip Innovations

8 Penn Center Blvd, #101
Pittsburg, PA 15276
support@voipinnovations.com

Skyswitch a BCM One Comany

Arbor Crest I, 751 Arbor Way, Suite #150
Blus Bell, PA, 19422
support@skyswitch.com

Quick Copper notifies its underlying carriers to block the originating number(s), terminating numbers(s), trunk(s) or customer, including termination of customer relationship to prevent robocalling, invalid originating number or spoofed origination number transiting Quick Copper's networks.

QUICK COPPER COMMUNICATIONS, LLC - ROBOCALL MITIGATION PLAN

COMPANY DECLARATION

Quick Copper certifies that it has never been under investigation or committed any violations within the last two years with any local, state, or Federal agency or equivalent related to telemarketing or robocalling. Additionally, Quick Copper is not currently subject to formal action or investigation due to suspected unlawful robocalling or spoofing.

If and when Quick Copper business may change designated Company representatives only will update this RMP as appropriate.
