

Fraud Management System (FMS) is setup to detect any abnormal Outgoing calls to all destinations.

Special rules are set it up for the fraud destinations as per GSMA fraud destinations list.

Batelco planning to implement SS7 FW & Voice FW to protect the customers from the following:

1. Protect Batelco Customers from External & Internal threats.

2.Voice Firewall to protect Batelco from the following Fraud scenarios:

Fraud Case-1 : CLI Spoofing for calls

FraudCase-2:Wangiri & RoboCalls.
