

March 2, 2022

This is to certify that Pennywell Corporation does not own a telephony network. We only utilize STIR/SHAKEN certified providers. We only send originating traffic to legitimate vetted customers over these compliant network providers.

Pennywell corporation primarily provides call management and enhanced messaging. Outbound calls are primarily call forwarding to our own customers telephones or originate from in-person dialing. In these cases, we send these calls to our customers over compliant telephone network providers.

Pennywell Corporation takes the following steps to avoid originating illegal robocall traffic:

- Limiting the number of concurrent outbound calls per customer
- No automated (computer aided dialing) calling equipment is allowed
- Verifying identity of primary account holders

Current Network Providers:

Vitelity/Inteliquent FRN: 0011583671

Respectfully,

Jonathan Penny

A handwritten signature in black ink, appearing to read 'Jonathan Penny', with a stylized, sweeping flourish at the end.

President
