STIR/SHAKEN COMPLIANCE

Through its underling carriers the company is fully compliant as a switchless reseller. As a switchless reseller Luksa Enterprises LLC does not own its own network or infrastructure of any kind and therefore has no access to any IP portion of any call and/or a SIP header of any call.

TRACEBACK

Luksa Enterprises LLC is committed to cooperating with the Federal Communications Commission (FCC), law enforcement, and the industry traceback consortium in investigating and stopping any illegal robo-callers that it learns are using our service to originate calls or transit calls into the United States and territories.

The Company commits to fully responding within 24 hours to all traceback requests from the ITG, the TPTG, the FCC, and law enforcement. The Company shall cooperate with these groups to investigate and stop any illegal robo-callers from using the Company's service to carry or process illegal calls.

When notified by the FCC's Enforcement Bureau, Company shall block and report identified illegal traffic, and any substantially similar traffic, on an ongoing basis (unless Company's investigation determines that the traffic is not illegal) when Company receives actual written notice of such traffic from the Enforcement Bureau. If Company determines that the identified traffic is not illegal, Company shall provide the Enforcement Bureau with an explanation as to why Company reasonably concluded that the identified traffic is not illegal, and what steps it took to reach that conclusion.

The Company utilizes a combination of internal tools and third-party solutions to check for Do Not Originate (DNO) numbers. In addition, the Company utilizes a combination of internal tools and third-party solutions to detect invalid phone number formats, area codes and unassigned number blocks. The Company also utilizes data analytics to detect and investigate irregular and unexpected calling patterns, originating number use against customer profiles.

KNOW YOUR CUSTOMER

The Company is provided with data systems for analytics and reviews to identify illegal robocalling in addition to a Know Your Customer (KYC) requirement by its platform provider and underlying carrier. The process includes:

- Monitoring the network to identify suspicious traffic patterns.
- Limiting customers' capacity via call per second and/or concurrent session limits.
- Regularly checking call patterns for possible abusive traffic.
- Through its MSP business Luksa Enterprises LLC, when the company commences operations with a customer, the company verifies all new customers with a combination of electronic and manual verification systems from trusted industry members, and previous experiences with customer executives and employees. The Company does not activate new accounts until accounts until these appropriate processes are complete.
 - Luksa Enterprises LLC supports its core business as an MSP and communications provider.
 - Thru the onboarding process, we qualify potential clients to ensure they are legitimate and continue to validate throughout the client life-cycle to ensure

legitimate business use of services offered by Luksa Enterprises LLC.

UPSTREAM PROVIDERS

Services and provisioned platforms from PayG dba SkySwitch as the two upstream providers which provide the platform to Luksa Enterprises does not own its own infrastructure and has no access to any IP portion of any call.
