

NORTH DAKOTA LONG DISTANCE LLC ROBOCALL MITIGATION PLAN

North Dakota Long Distance LLC(NDLD) is a switchless reseller of long-distance service. NDLD is owned by nine ILECs in the state of North Dakota. Owner company customers choose NDLD as their long-distance provider. All calls originate on owner company's networks and are handed off to a third-party provider's network from which NDLD buys long-distance. Calls are terminated on the end user provider's networks.

Consistent with 47 CFR § 64.6304, NDLD does not have an obligation to implement STIR/SHAKEN because it lacks the facilities necessary to implement STIR/SHAKEN and does not meet the qualifications to obtain a SPC token. NDLD does not have an OCN assigned and does not have numbering assigned nor a network for routing traffic.

Robocall Mitigation Plan

NDLD does not originate voice traffic. Owner company customer calls originate on owner company networks and are subject to the Robocall Mitigation Plans in place by the owner companies.

Call Analytics

Owner company customer calls originate on owner company networks and are subject to the call analytics and/or internal call monitoring in place by the owner companies.

Know your Customer

Owner company customer calls originate on owner company networks and are subject to the procedures the owner company has in place to prevent new & renewing customers from originating illegal robocalls.

Upstream Provider Knowledge

Owner company customer calls originate on owner company networks. The Robocall Mitigation Plans filed by the owner companies describe how they know their upstream providers.

Traceback

Owner company customer calls originate on owner company networks. The Robocall Mitigation Plans filed by the owner companies describe their traceback commitment to cooperating with the Commission, law enforcement, and the industry traceback consortium in investigating and stopping any illegal robocallers they learn are using their service to originate calls and responding to all traceback requests from the Commission, law enforcement, and the industry traceback consortium, within twenty-four (24) hours.
