Performing Robocall Mitigation Plan

The following specific and reasonable steps taken have been taken by Abria, Inc. to avoid originating illegal robocall traffic as part of its robocall mitigation program.

- Abria, Inc. operates a closed network only accessible by our customer base which are small to medium-sized businesses. Access to outbound calling is restricted to known locations and systems. Access to the system for any kind of SIP connection is restricted by firewall and authentication mechanisms which prevent unknown or unauthenticated access. This is compliant with 47 CFR § 64.6305(a).
- Abria, Inc. has implemented the STIR/SHAKEN authentication framework. Calls originated are compliant with 47 CFR § 64.6301(a)(1) and (2).
- Abria, Inc. will respond to all traceback requests from the Federal Communications Commission, law enforcement and the industry traceback consortium and to cooperate with such entities in investigating and stopping any illegal robocallers from using its services to originate calls, and that all voice traffic that originates on its network is subject to this robocall mitigation program.
- Abria, Inc. screens all applicants for its services and requires by contract that all users of its services comply with applicable laws and regulations. All calling campaigns are subject to the terms and conditions of Abria, Inc. and that of The Campaign Registry™ (<https://www.campaignregistry.com/>). Calls to wireline numbers for purposes of political campaigning, market research or polling are deemed legal.

Signed,

A handwritten signature in blue ink, appearing to read "John P Busse", is written over a horizontal line.
