

Skyline Technology, LLC has taken the following measures to avoid originating illegal robocall traffic:

1. All voice services are authenticated by Verified by either
  - a. Verified source IP addresses
  - b. Inteliquent our upstream telco provider
  - c. Our customer policy prevents selling to customers that use our service for robocall activity and that if any are identified through due diligence monitoring, we notify the customer to stop immediately; failure to do so results in our terminating the customer.

Skyline Technology, LLC's STIR/SHAKEN implementation is extended under 47 CFR § 64.6304, paragraph (a), due to less than 100,000 subscribers.
