

STIR/SHAKEN IMPLEMENTATION & ROBOCALL MITIGATION PLAN (RMP)

Pursuant to 47 C.F.R. § 64.6305, Invision Technologies, LLC submits this report on its implementation of the STIR/SHAKEN call authentication framework and its plan to prevent and mitigate illegal robocalls. This report describes the status of its implementation of STIR/SHAKEN and the practices and procedures Invision Technologies, LLC has in place to mitigate illegal robocalls. Invision Technologies, LLC may modify, add, delete, or otherwise alter any of the policies and procedures described in the plan at any time in order to respond to changes in its business, its capabilities and its needs.

Invision Technologies, LLC has not been prohibited from filing in the Robocall Mitigation Database pursuant to a law enforcement action, and none of its prior certifications have been removed from the Database by the Commission.

Invision Technologies, LLC has not been, at any time in the prior two years, the subject of a formal Commission, law enforcement, or regulatory agency action or investigation with Invision Technologies, LLC's findings of actual or suspected wrongdoing due to it transmitting, encouraging, assisting, or otherwise facilitating illegal robocalls or spoofing, or a deficient Robocall Mitigation Database certification or mitigation program description.

STIR/SHAKEN IMPLEMENTATION

Invision Technologies, LLC will comply fully with all conditions set forth in the FCC'S 2020 Report and Order mandating the implementation of the STIR/SHAKEN framework, as well as with the Commission's rules and policies more generally.

Invision Technologies, LLC is implementing STIR/SHAKEN through use of the Underlying Provider. This is a managed end-to-end call authentication solution that fully satisfies the FCC's STIR/SHAKEN requirements. It provides a standardized approach to call authentication and verification (STIR – RFC 8224, RFC 8225, RFC 8226 and SHAKEN – ATIS-1000074-E, ATIS-1000080, ATIS- 1000082).

Invision Technologies, LLC has implemented this solution in the IP portions of its network by June 30, 2023. And my traffic is fully attested.

The Company's Underlying Provider(s), Upstream Carriers are: Bandwidth, Telnyx, and Intelliquent.

ROBOCALL MITIGATION PLAN

This Robocall Mitigation Plan describes the specific measures Invision Technologies, LLC has implemented to detect and prevent illegal robocalls on its network as of June 30, 2023. Invision Technologies, LLC will periodically evaluate the risks it faces, the effectiveness of its policies and procedures, and its capabilities to support the measures described. Should Invision Technologies, LLC determine that changes are appropriate, its practices may differ from those described below.

Risk Assessment. Invision Technologies, LLC is a voice service provider offering a variety of voice calling services. Its customers generally do not originate high volume calls and Invision Technologies, LLC has not received information suggesting that robocalls originated on its network. Therefore, Invision Technologies, LLC does not consider its network at high risk of originating illegal robocalls.

SPECIFIC MEASURES TO IDENTIFY AND PREVENT ILLEGAL ROBOCALLS

Customer Due Diligence: Invision Technologies, LLC conducts due diligence on new and renewing customers, confirming the customer's identity and, if it is a business, its incorporation documents. Invision Technologies, LLC confirms the customer's service address for all customers.

- Invision Technologies, LLC verifies a customer's business reputation prior to providing service.
- Invision Technologies, LLC verifies customer information when contracts are renewed, or services are added.
- Invision Technologies, LLC verifies the customer's identity and their right to use the telephone number presented on calls.
- Invision Technologies, LLC has policies that define the circumstances by which it will deny, suspend or terminate service to a customer.

Direct IP Intermediate Carrier Due Diligence: Invision Technologies, LLC takes appropriate steps to know the immediate service provider to ensure that the immediate upstream provider is not using it to carry or process a high volume of illegal traffic.

Measures to Prevent or Avoid the Origination of Illegal Robocalls

- Invision Technologies, LLC has in place an enforceable terms of use and/or an acceptable use policy. Invision Technologies, LLC also has in place policies designed to detect and prevent fraudulent traffic on its network.
- Invision Technologies, LLC uses TNS Call Guardian through Transnexus analytics technologies and services to monitor traffic on its network and identify potentially unlawful call origination activity. If Invision Technologies, LLC has a reasonable basis to believe that a customer is originating illegal robocalls, it will require the customer to remedy the problem and, if effective action is not taken, Invision Technologies, LLC can suspend and/or terminate service to the customer.
- Invision Technologies, LLC verifies that the direct intermediate carriers that are used by Invision Technologies, LLC are in the FCC RMD and does not accept traffic from intermediate carriers who are not in the RMD.

Invision Technologies, LLC

310 Over Court
Albany GA, 31721

- Invision Technologies, LLC blocks the following types of calls by default with such calls that originate from invalid numbers per FCC Order 2017 Call Blocking Order and calls from DNO numbers as per FCC Order 2017 Call Blocking Order.
- Invision Technologies, LLC also blocks the following types of calls:
 - ✓ Describe any blocking based on FCC safe harbors – analytics, network-based blocking, etc.
 - ✓ Describe any other blocking policies.
 - ✓ As an originating service provider and/or intermediate carrier that is immediately downstream from a bad actor, will block traffic from the bad actors when notified by the commission.

Responding to Traceback Requests

- Invision Technologies, LLC has designated an individual as a dedicated point of contact for addressing traceback requests, and a backup person to that individual. It either has provided the ITG with the contact information and business hours for those individuals or will do so upon receipt of the first request from the ITG. See <https://www.ustelecom.org/the-industry- traceback-group-itg/for-providers/>
- Invision Technologies, LLC will respond within 24 hours of receipt of traceback request to inquiries received from the Industry Traceback Group. If a pattern of questionable activity is detected, Invision Technologies, LLC will require its customer to remedy the problem and, if effective action is not taken, service to the customer may be suspended and/or terminated.

Cooperation with State and Federal Regulators

Invision Technologies, LLC will cooperate with state and federal regulators to prevent any and all illegal robocalls. Specifically, Invision Technologies, LLC will:

- Respond to valid law enforcement requests.
- Provide relevant non-proprietary information in response to reasonable and legitimate requests about illegal robocalls and suspicious activities; and
- Implement mandated robocall mitigation procedures to the fullest extent possible with the goal of maximizing the mitigation of illegal robocalls.

Invision Technologies, LLC has deployed call authentication, call labeling, and call blocking services provided by the Company's Underlying Provider. We have made great strides to protect our networks and consumers from harmful calls. Invision Technologies, LLC is pleased to play a role in that improvement and will continue the necessary work to protect our customers.
