

Unlimited Net, LLC
3129 25th St
Suite 135
Columbus, IN 47203-2436

FRN: 0019476274

To:
FCC Robocall Mitigation Applications Team

To whom it may concern,

Unlimited Net has implemented an Option 1 certification compliant mitigation plan to prevent any robocalling and/or unsolicited from taking place.

The following conditions will be met at all times:

- Unlimited Net only places calls to a select list of clients.
- Client contact information is stored within a secured database.
- Company shall monitor the traffic moving through its network. CDRs shall be analyzed regularly by our internal technicians. Inspection of call durations to ensure that no auto-dialer traffic is being sent by customers that signed up for voice service. Company shall track call volumes and caller-ID utilization to spot changes indicative of illegal robocalls.
- Unlimited Net and it's point of contact will fully cooperate with all law enforcement and commission requests.

Furthermore, Unlimited Net is fully committed to proactively preventing misuse of telecommunications services and has implemented strict controls and policies on internal infrastructure and services to prevent 3rd party abuse and allow only legal and solicited traffic to proceed.

Best Regards,

Jason Canady
