Re: Robocall mitigation program

To whom it may concern,

New England Wireless Co. llc ("NEWCo") has taken the following steps to avoid originating illegal robocall traffic as part of its robocall mitigation program

- All NEWCo VoIP customers are also Fixed Wireless subscribers who have accepted the company's fair use policy which prohibits abusive use of its services, failing which their services can be terminated.
- VoIP customers are known to the NEWCo's management and have been screened as legitimate users of its services.
- VoIP customers' use of NEWCo's VoIP services are periodically reviewed to identify usage patterns as part of the management of our resources. This analysis provides the opportunity to detect abusive behavior.
- NEWCo has not had reason to do so but stands ready to notify any of its customers of VoIP use deemed abusive and suspend services if necessary.

Sincerely,

A handwritten signature in black ink that reads "J-P. Luc Beaubien".
