DMR Communications does not allow customers to select or modify their Caller ID for outbound calls. Changes to caller ID can only be done by employees of DMR Communications. DMR Communications has policies and procedures in place to ensure that employees can only select as a Caller ID for a customer a number that has been assigned to that specific customer.

All Calls originating on DMR Communications networks are subject to fully implemented STIR/SHAKEN protocol either directly through us or via one of our underlying outbound long distance providers.

DMR Communications certified that it believes it is fully compliant with 47 C.F.R. §64.6305
