

Trusted Technical Services Inc.

2104 Castleburg Drive

Apex, NC 27523

STIR/SHAKEN specific reasonable steps we have taken to avoid originating illegal robocall traffic.

We are a small Hosted PBX VoIP Service provider with a small customer base of less than 30 small business companies. We have a personal relationship with all our customers and are confident that they do not engage in any robocall activity.

We personally interact with our customers at a minimum of once a month and often on a daily or weekly basis.

We monitor our service daily for function, responsiveness, and volume of calls. If anything is out of the norm we address it immediately in order to avoid customer and regulatory sat issues.
