

Robocall Mitigation Plan

Relion qualifies as a “small voice service provider”, since we have fewer than 100,000 voice service subscriber lines.

Stir/Shaken is provided by our carrier, Bandwidth, and all traffic traverses through their network.

Relion certifies that we are a 3CX PBX reseller, and all our voice traffic originates only from our managed 3CX PBX customers. In other words, we have full call logs available from our customers, and are committed to respond to all traceback requests from the Commission, law enforcement, and the industry traceback consortium, and to cooperate with such entities in investigating and stopping any illegal robocallers that use our service to originate calls, and that none of the voice traffic that originates on our network is authenticated with STIR/SHAKEN, and that all of the voice traffic that originates on our network is subject to a robocall mitigation program.

A handwritten signature in black ink, appearing to read "Brian", written on a light-colored, slightly textured background.

Brian Lee
