

Robocall Mitigation Program Description

Data Day Consulting INC

FCC Registration Number (FRN): 100

Date: June 16, 2025

1. Company Overview:

Data Day Consulting INC is a VoIP service provider offering telecommunications services to customers in the United States. The company is committed to full compliance with FCC robocall mitigation rules and strives to prevent the origination of illegal robocalls on its network.

2. STIR/SHAKEN Implementation:

Partial STIR/SHAKEN Implementation:

Data Day Consulting INC has deployed STIR/SHAKEN call authentication for IP-based voice traffic wherever technically feasible. However, some interconnections involving TDM-based or legacy networks cannot yet support STIR/SHAKEN. The following robocall mitigation practices are applied to all non-IP originated traffic.

3. Robocall Mitigation Practices:

- Customer Vetting: All new customers undergo strict Know Your Customer (KYC) procedures, including identity verification, use case validation, and an evaluation of calling intentions to prevent potential abuse.
- Traffic Monitoring: Automated systems monitor calling patterns in real-time to detect high-volume, short-duration calls or other suspicious activities indicative of illegal robocalls. Flagged traffic is subject to immediate manual review and potential call blocking.
- Call Blocking: Calls that are determined to be highly suspicious or invalid are blocked in compliance with FCC guidelines to prevent illegal robocalls from originating on the network.

- Cooperation with Traceback Requests: Data Day Consulting INC fully cooperates with traceback requests received from the Industry Traceback Group (ITG) or authorized law enforcement bodies to identify the source of suspected illegal traffic.
- Customer Agreements: All customer agreements prohibit the transmission of unlawful robocalls and require compliance with all applicable laws and FCC regulations.

4. Points of Contact for Robocall Mitigation:

Primary Contact:

Moshe Rosenberg

Chief Executive Officer (CEO)

[REDACTED EMAIL]

[REDACTED PHONE]

Technical Contact: Same as above

5. Principals, Affiliates, Subsidiaries, Parent Companies:
