

Robocall Mitigation Plan

Steps to avoid origination illegal robocall traffic:

1. Only allow single-registered devices that are fully controlled and provisioned by us
2. Do not allow gateway usage

Commitment to respond to traceback requests and investigations:

We are fully committed to respond within 24 hours to all traceback requests from the Commission, law enforcement, and the [industry traceback consortium](#), and to cooperate with such entities in investigating and stopping any illegal robocallers that use its service to originate calls.
