

Company Name: Quik

FCC Registration Number (FRN): 0023326432

Date: 2025-05-16

A. Response to FCC Requirement Pursuant to Paragraph 46 of the Sixth Caller ID Authentication Report and Order (FCC 23-18)

Pursuant to paragraph 46 of the Sixth Caller ID Authentication Report and Order (FCC 23-18), Quik provides the following information regarding its corporate structure:

1. Officers of Quik:

- **Jose Paz**, Officer
- **James Lyons**, Officer

2. Parent Company:

- Quik is a privately held limited liability company. Quik has no parent company.

3. Subsidiaries:

- Quik does not have any subsidiaries.

4. Affiliates:

- Quik does not have any affiliates.

B. Response to STIR/SHAKEN Implementation Requirement under 47 CFR § 64.6305(d)(2)(i), (e)(2)(i), and (f)(2)(i)

Pursuant to 47 CFR § 64.6305(d)(2)(i), (e)(2)(i), and (f)(2)(i), Quik affirms the following with respect to its STIR/SHAKEN implementation status:

Quik does **not** rely on any extension under § 64.6304 and **does not require an exception** to implement STIR/SHAKEN. Quik has full control over the network infrastructure necessary for implementation and has deployed STIR/SHAKEN in accordance with applicable FCC rules and requirements.

C. Response to Robocall Mitigation Program Requirements under 47 CFR § 64.6305(d)(2)(ii), (e)(2)(ii), and (f)(2)(ii)

In accordance with the Robocall Mitigation Database filing requirements under 47 CFR § 64.6305(d)(2)(ii), (e)(2)(ii), and (f)(2)(ii), Quik provides the following supplemental information regarding its robocall mitigation practices:

1. Reasonable Steps to Prevent Illegal Robocall Traffic:

Quik's voice services platform is configured to override the caller ID numbers of all originating calls with those pre-approved and configured by our internal staff for each client account. This ensures that only validated and authorized caller ID information is used. Our platform is designed to block caller ID spoofing and enforce accountability for call originations.

2. Know Your Customer (KYC) and Upstream Provider Compliance:

Quik implements a formal onboarding process for all new clients, which includes the collection and verification of client identification and contact information. Each client must review and agree to our Terms of Service, which explicitly prohibit caller ID spoofing, the use of auto-dialers, and the transmission of unlawful robocall traffic. This KYC process enables us to assess the legitimacy and risk level of each customer prior to service activation.

3. Analytics Systems Used:

Quik does not utilize any additional automated analytics system to identify or block illegal traffic due to our system overriding originating calls caller ID numbers. However, we actively monitor call behavior manually and investigate any reports of suspicious or potentially unlawful call activity received from industry traceback efforts or regulatory agencies.

4. Use of Third-Party Analytics Vendors:

Quik does employ third-party analytics from our downstream vendors (Bandwidth, Commio and FlowRoute) for robocall detection or blocking.

Quik affirms that the information provided is accurate and up to date in accordance with the filing requirements.
