

April 28, 2024

This serves to updating filing on 6/2/2022.

Vickers Computer Services, LLC is not obligated to implement STIR/SHAKEN due to 47 CFR § 64.6306 paragraph b. We are a white label reseller. We do not have a gateway and customer SIP traffic does not traverse our network. Therefore, we are not obligated nor able to implement STIR/SHAKEN. However, we utilize gateway carriers that implement SIR/SHAKEN. Therefore, we claim option 3, but could even consider option 1 based on this statement.
