Plan File Date: 6-24-2021

About Axkan Consultores, S. de R.L.

Axkan Consultores, S. de R.L. operates primarily as a wholesale voice service provider. Axkan Consultores, S. de R.L. offers services mainly to other carriers as a wholesale service to other wholesale services providers who implement their own Stir Shaken or Robocall Mitigation Plan and not to end Users or subscribers directly except in special cases. Either way Axkan operates at all times consistently with the rules regulations and orders of the Federal Communications Commission. Specifically on the matters regarding short duration traffic.

Our Main Policy is Know your Customer

Traceback

Axkan Consultores S. de R.L. is committed to respond to all the traceback request that should be sent by the Federal Communications commission, Law enforcement agencies and the registered traceback consortium, and will cooperate with all of this entities on whatever it takes to investigate and to stop the illegal robo callers from using our company service to originate calls.

Axkan, S. de R.L. follows the best practices for vetting caller identities described by the NANC Call Authentication Trust Anchor Group . (<https://docs.fcc.gov/public/attachments/DOC-367133A1.pdf>)

STIR/SHAKEN Extensions

Axkan Consultores, S.de R.L. serves a limited amount of subscriber lines. As such, Axkan will take advantage of the STIR/SHAKEN implementation extension received under 47CFR 64.6304 which states in pertinent part:

§ 64.6304 Extension of implementation deadline.

- (a) Small voice service providers. (1) Small voice service providers are exempt from the requirements of §64.6301 through June 30, 2023. (2) For purposes of this paragraph (a), “small voice service provider” means a provider that has 100,000 or fewer voice service subscriber lines (counting the total of all business and residential fixed residential subscriber lines and mobile phones and aggregated over all of the provider's affiliates).

Axkan Consultores, S.de R.L. serves primarily other voice providers which authenticate the originating traffic with STIR/SHAKEN . Axkan Consultores, S.de R.L. subjects the remainder of the voice traffic originating on our network to the Robocall Mitigation plan Set forth Below.

Robocall Mitigation Plan

Axkan Consultores, S.de R.L. **uses internal software in conjunction with software provided by it’s provider’s to monitor outbound voice traffic in real time, preventing the origination of illegal robocalls for the small portion of voice traffic that does not originate from its wholesale voice service provider clients with STIR/SHAKEN. The software provides detailed reporting, identifying suspected illegal robocalls and alerts us if we originate any calls where the calling number appears invalid, unallocated, on a Do Not Originate list, in the FCC consumer complaint database or maintains a poor reputation. Telecom Carrier will immediately investigate identified calls to determine whether the caller seeks to originate unlawful robocalls. If Axkan Consultores, S.de R.L. determines the calls include attempts to originate unlawful robocalls, then we either warn them to stop, block the calling and/or terminate their service as consistent with industry standard operating procedures**

Axkan Consultores, S.de R.L.

Stir Shaken Implementation Program

Telecom Carrier Access, Inc. will be implementing full Stir Shaken at a later date. And will update its filings accordingly.
