

After a conversation Jonathan Lechter at the FCC. I don't believe we have to implement Stir and Shaken as this is done for us by our suppliers at VoIP Innovations. We only have 4-5 customers in the USA which are satellite offices for their UK headoffices. We do not have a physical presence in terms of an office in the USA.

Please let me know if there is anything else we need to do to remain compliant.

Kindest regards,

James
