Winet Infratel is an India-based licensed ISP and ITSP, providing international telecommunications services in accordance with applicable laws and regulations in India.

STEPS TAKEN BY Winet Infratel TO PREVENT ILLEGAL ROBOCALLS FROM ORIGINATING FROM ITS PLATFORM

Customer Documentation

Winet Infratel collects proof of identity & address while on-boarding a customer. Have specific agreements with the customer explaining the platform usage terms.

Illegal Robo call Mitigation:

We use several data analytics methods to detect illegal robo-calling patterns such as short but intense calling period, calls of similar length. High volume call termination to particular destination from a single or series CLI

Suspicious cases we request the carrier to verify the calling numbers and partially block & approach the carrier for resolution.

Industry cooperation:

We fully cooperate in industry trace back efforts and law enforcement requests.
