Robocall Mitigation Program

Fecha: 2021 September 9th

We are a small spanish voice operator an we have a very limited number of clientes with USA numbers. We have 6 numbers and all of them belong to spanish standard companies not related with comercial activities. We have revised their calls and none of them has made such many calls to think that they are making calls with any robotcall system from the USA numbers.

We commit to not allowing any company liable to such a activity to have USA numbers and to review the activity of USA numbers holders monthly.

A handwritten signature in black ink, appearing to read "Antonio José Cerrolaza Martínez", written over a horizontal line.

Fdo. Antonio José Cerrolaza Martínez
