

ROBOCALL MITIGATION PROGRAM

- As a small telephone reseller of SIP service to less than 100,000 voice subscriber lines and we have not obtained a complete SIR/SHAKEN certificate. As a reseller of Vitelity / InteliQuent, we qualify for the extension of their STIR/SHAKEN requirements under the C.F.R Section §64.6304.
- We are not able to verify 100% of the traffic before allowing or terminating calls, but if they are were to take place we have an after-hours call center that can address the issue with in 24-hrs. Calls can be made with or without caller ID.
- Should a customer of Nuwave Technology Inc. take part in activities that include making robocalls their service will be terminated immediately. Nuwave Technology will immediately investigate and identify calls to determine if the caller was attempting to originate unlawful calls or it was made in error.
- Our software in place identifies foreign I.P. addresses and Nuwave Technology will remove and block any suspicious addresses / numbers.
 - Nuwave Technology Inc. is not a foreign voice provider.
- If required by authorities, Nuwave Technology Inc. will provide any necessary support to identify and block any source of illegal calls.
