Robo Call Mitigation

We hereby state and affirm that our service provides inbound only service to a paying customer base and does not engage in calling customers with the exception of when they specifically log in to their account and request a call so that they can record a custom greeting.

The number called is the number listed in their user account and user accounts are tied only to paying accounts.

All other outbound calls have been disabled in our service and are not allowed in our platform.

Sincerely,
Stephen Bickle
President - Status Share, LLC (DBA: RainoutLine.com)
