ROBOCALL MITIGATION PLAN

Date filed: 29 September 2021

Name of company covered by this certification: Danitech Corp

Walter Birriel, Vice President
404 W Mirror Lake Dr
Fruitland Park, FL 34731

Danitech Corp has completed partial implementation of STIR/SHAKEN and does have robocall mitigation features in place.

Extension: Under Section 64.6304, Danitech Corp has an extension, as it has fewer than 100,000 subscribers.

Robocall Mitigation: On outbound calls, Danitech Corp acts aggressively to prevent

Robocalls.

- Danitech Corp directly limits the number of concurrent calls that any user or organization can make.
- Danitech Corp does not allow modification of outbound caller-id by its users to be for numbers that they do not own or operate.

Additionally, Danitech Corp verifies subscribers on an ongoing basis:

- Company's customer base is overwhelmingly SMB, who do not generally generate robocalls, and are restricted to a service profile, dramatically restricting their ability to do so.
- Customers are generally well-known as individual organizations, including business and contact verification.
- Danitech Corp terms of service do not allow customers to resell services and allow for immediate termination or call restriction when abuse is detected.

Traceback: Danitech Corp will gladly and aggressively respond to any traceback request from the FCC, law enforcement agency, or industry consortiums, and will work to eliminate and block all such calls.

Best regards,

Signed Walter A Birriel
Vice President
