

Mantradharini

Business solutions

Mantradharini Technologies Private Limited is an Integrated VoIP service provider providing fewer than 100end users.

However, Mantradharini Technologies Private Limited is committed to actively eliminating the ability of its customers to participate in any form of illegal activity. The robocalls mitigation plan.

- All our customers are corporate that are thoroughly checked and validated before signing a contract.
- All customers sign an agreement that restricts any illegal activity.
- Our main product is a PBX-hosted solution where customers can use only dedicated numbers and physically cannot alter the caller ID.
- We have a fraud detection system in place and a dedicated team monitoring for any suspicious calls to detects fraudulent activity and immediately blocks all outgoing calls from the customer.
- We immediately react to any legitimate complaints from our carriers by blocking outgoing calls from customers who cause the issues.
- Our team is constantly working on improving our security system and VoIP software system which uses AI and ML for detecting and preventing any robocall activity.
