December 18, 2024

To Whom It May Concern,

I am writing to clarify our company's status concerning compliance with the Robocall Mitigation Database (RMD).

Our company operates solely as a reseller of telecommunications services provided by Telnyx and Bandwidth. We do not originate or terminate voice traffic, nor do we provide direct telecommunications services to end-users. As such, we do not maintain registration in the RMD or implement a robocall mitigation program independently.

We rely on Telnyx and Bandwidth, the upstream provider of the services we resell, to meet all RMD compliance requirements, including implementing and maintaining a robocall mitigation program as applicable.

If further information or documentation is needed to confirm our status, please let us know, and we will be happy to provide it.

Thank you for your attention to this matter.

Best regards,

STEFANIA BORSAS
Operations Manager
