Currently I use VOIP Innovations as my only provider for VOIP services. They are attesting 100% of my calls as part of their service. If there is any question as to call verification we can utilize the service they provide to their customers in case of any investigation. I recently requested a report and they advised they are currently successfully attesting 100% of my calls.

If you have any questions please contact me at jacobs@vtslr.com.

Thank you,
