

Partial STIR/SHAKEN at Webforma, INC

In voice traffic termination Webforma inc acts as a client of the wholesale voip provider "Voyant Communications LLC" (RMD0002046), providing a phone service to several end-users, setup as secure endpoints.

Whole VOIP traffic from our office network goes directly and only via Volant Communication, and we rely on STIR/SHAKEN implementation provided by Volant Communication LLC.

If you have any questions, please feel free to reach me at vmarchenko@webforma.com

Sincerely, Vlad Marchenko
President, Webforma INC
