

Robocall Mitigation Program Description

Simpletech

FRN: 0031469810

RMD ID: RMD0008566

Simpletech is a foreign voice service provider based in Montevideo, Uruguay. The company provides VoIP PBX installation and configuration services (3CX systems) for business customers.

Simpletech does not operate its own telecommunications network in the United States and does not directly originate voice traffic to the U.S. PSTN using independent carrier infrastructure.

Direct Inward Dialing (DID) numbers and voice termination services used by Simpletech customers are provisioned through authorized upstream carriers, including N2P and other underlying providers.

Simpletech relies on its upstream voice service providers to implement STIR/SHAKEN authentication frameworks in compliance with FCC regulations and applicable U.S. law.

Simpletech does not alter caller ID information outside of customer-authorized configurations within PBX systems and does not knowingly originate illegal robocalls or spoofed traffic.

In the event that Simpletech becomes aware of suspicious or unlawful traffic activity, it cooperates with its upstream providers to investigate and take appropriate corrective actions, including suspension of services if necessary.

Simpletech maintains internal policies prohibiting fraudulent traffic, spoofing, and illegal robocalling activity.

This document is submitted in compliance with 47 CFR § 64.6305.

Executed on March 3, 2026.
