LES.NET (1996) INC (LES.NET) is a Canadian Competitive Local Exchange Carrier based in Winnipeg, Manitoba, Canada with operator carrier number (OCN) 141F and is bound by the Canadian Radio-television and Telecommunications Commission (CRTC) Compliance and Enforcement and Telecom Decision CRTC 2021-123 in regards to the implementation of STIR/SHAKEN with deadline November 30th, 2021, we have made significant progress towards becoming shareholders of the CSTGA and allocating capacity for the following specific measures:

- perform complete intra-network STIR/SHAKEN-compliant calls,
- authenticate and transmit the authentication information to the next TSP in the call path when originating a call,
- receive and verify the caller ID information when terminating a call,
- send the Verstat parameter to wireless and landline end-users when an analytic engine is not used,
- transmit the STIR/SHAKEN information when transiting a call received on an IP interconnection from an upstream TSP and sent on an IP interconnection to a downstream TSP,
- authenticate unsigned calls received from an upstream TSP that either terminate on the TSP's IP network or are sent to a downstream TSP through an IP interconnection,
- handle diverted calls,
- handle toll-free calls,
- handle emergency calls, and
- handle legitimate spoofed calls;

Whereas LES.NET provides only prepaid services where every customer is vetted and verified prior to onboarding in our prepaid self service portal and whereas we do not allow user inputted automated credit card payments, we are committed to elimination of all unauthorized voice traffic.

LES.NET is updating Terms & Conditions to reflect compliance status as of deadline.

Should you have any questions, please do not hesitate to contact me the undersigned.

Sincere Regards,

A handwritten signature in blue ink, appearing to read "LBester", is written over a horizontal line.

Leslie Bester, President
