

13 October 2021

To whom it may concern:

Precise Networks, Inc., a voice service provider with FCC FRN 0031510571, commits to respond to all traceback requests from the Commission, law enforcement, and the industry traceback consortium, and to cooperate with such entities in investigating and stopping any illegal robocallers that use its service to originate calls, and that none of the voice traffic that originates on its network is authenticated with STIR/SHAKEN, and that all of the voice traffic that originates on its network is subject to a robocall mitigation program.

Since initially providing voice services in 2011, Precise Networks takes the following mitigation steps against fraudulent calls:

- We personally know each of our clients and their business;
- We prohibit clients from originating caller ID numbers that they do not subscribe to;
- We commit to completing a full implementation of the STIR/SHAKEN protocol, consistent with 47 CFR § 64.6301(a), as soon as possible.

Sincerely,

Patrick Bennett, President
Precise Networks, Inc.
