

We will be ensuring following details

#1 We will be complying with FCC's all regulation mechanism.

#2 We will promptly revert if we receive any tracebacks

#3 If we found any malicious element in our traffic inventory, that is responsible for robocalls traffic then we will strictly warn them.

#4 Even after warning if the bad traffic persists, we will remove them from our network.

#5 If any new compliances and guidelines come, we also promise to follow them as well.
