

Remar Corp
6651, Woolbright Road,
No.104, Boynton Beach,
FL - 33437 USA.
561-336-3671

Remar Corp utilizes an upstream carrier that supports customer origination and termination with full STIR/SHAKEN deployments, as well as robocall mitigation programs and policies in place. This has been expressly confirmed by our said carrier. Further confirmed that the said carrier is a listed (per

<https://authenticate.iconectiv.com/authorized-service-providers-authenticate>) authorized provider.

All Caller IDs, TNs, CNAMEs, and customer addresses are verified prior to activation.

Remar Corp has processes in place for regular traffic analysis, investigating suspicious calls and calling patterns and properly authenticating originating and terminating telephony calls (DIDs). Remar Corp fully manages all telephony applications and switching for its customers, and takes all reasonable steps to ensure full compliance per this filing.

Remar Corp states that it does not carry any robocall traffic currently.

Remar Corp does not currently have direct access in terms of our own numbering access and we depend on our said service providers to provision telephone numbers.

Remar Corp is a small voice service provider and a provider of IT Enabled services .

Remar Corp assures that it will respond to all traceback requests from the FCC, law enforcement, and the registered industry traceback consortium, and to cooperate with such entities in investigating, stopping any illegal robocall activity, and taking steps to prevent future incidents.
