

Peachtree Communications will adhere to the following:

§ 64.6305 Robocall mitigation and certification.

All sections related to Peachtree Communications

and

§ 64.6302 Caller ID authentication by intermediate providers.

Authenticate caller identification information for all calls it receives for which the caller identification information has not been authenticated and which it will exchange with another provider as a SIP call, except that the intermediate provider is excused from such duty to authenticate if it:

(1) Cooperatively participates with the industry traceback consortium; and

(2) Responds fully and in a timely manner to all traceback requests it receives from the Commission, law enforcement, and the industry traceback consortium regarding calls for which it acts as an intermediate provider.
