

Contact Ventures LLC, DBA Contact Paging  
142 Avenue C  
Williston, VT 05495

## **Robocall Mitigation Policy**

**February 24, 2026**

Contact Ventures LLC, DBA Contact Paging is a paging company operating in Vermont and New York state, utilizing CMRS type trunks for interconnect. Contact Ventures LLC, DBA Contact Paging functions as a voice service provider is inbound only, servicing less than 100,000 subscribers.

### **I. Extension and Implementation Status**

Contact Ventures LLC, DBA Contact Paging is eligible for the continuing extension of the STIR SHAKEN implementation deadline as a small voice service provider (§64.6304 (a)(2) that has non-IP portions within its network §64.6304(d). Contact Ventures LLC, DBA Contact Paging Also lacks control over the Network infrastructure necessary to implement STIR/SHAKEN as PSTN interconnection is TDM (T1) via the LEC in the associated LATAs. In addition to TDM interconnect, Contact Ventures LLC, DBA Contact Paging was provided a one way (terminate only) trunk by Inteliquent (Synch) to resolve rural call completion issues to our subscribers pagers. SYNCH has fully implemented STIR/SHAKEN on its network.

### **II. Robocall Mitigation.**

Contact Ventures LLC, DBA Contact Paging's, subscribers, as one way paging service users, do not originate calls. Additionally Contact Ventures LLC, DBA Contact Paging originates NO outbound calls over its Voice Service Provider (CRMS paging carrier) trunks.

### **III. Traceback.**

Contact Ventures LLC, DBA Contact Paging will actively participate in the traceback community including the FCC, law enforcement, and The Industry Traceback Group. Contact Ventures LLC, DBA Contact Paging commits to respond within 24 hours to all traceback requests from the Commission, law enforcement, and the industry traceback consortium and will cooperate with such entities.
