Robocall STIR/SHAKEN Certification Statement

2/19/2026

To Whom it may concern,

GroupOne Consulting Inc., operates a self-owned hosted UC platform limited to “Fully Managed IT” clients and certifies that the following measures have been put in place to block unauthorized calling.

1. All client network and security elements are managed by GroupOne.
2. All client network and telephone traffic is managed by GroupOne.
3. All client telephone call origination is limited to system-registered devices.
4. All client telephone devices are managed by GroupOne.
5. All client telephone devices have unique provisioning passwords.
6. Telephone device firmware is updated as appropriate.
7. The GroupOne Hosted PBX platform software is updated as necessary when made available by the software vendor.
8. Call rates and simultaneous session limitations are imposed on a per-client basis.
9. Call rates and simultaneous sessions are monitored and alarmed for investigation purposes.
10. GroupOne maintains minimum 90-day call trace history.
11. All outbound termination carriers are providing attestation-level “B”.
12. Inbound calls are only accepted from PSTN carrier with full STIR/SHAKEN screening.
13. GroupOne Consulting does not provide any resold services.

Regards,

Chas Wiegman | Systems Architect
