

Robocall Mitigation Program Description

Provider Details

Company Name: LENET LLC - Contact Information: OLIVIER HAVETTE

OCN Status: Not applicable. LENET LLC operates as a small VoIP provider or intermediary provider without an assigned OCN. We ensure compliance through reliance on upstream providers and robust internal policies.

Robocall Mitigation Program Description

1. Illegal Robocall Prevention:

- We implement measures to detect and block illegal robocalls originating from our network.
- Our system monitors and identifies suspicious call patterns in real-time.

2. Cooperation with Traceback Requests:

- We commit to responding fully and within 24 hours to traceback requests from the FCC, law enforcement, and the industry traceback consortium.
- We provide call detail records (CDRs) and other necessary information to support traceback efforts.

3. Customer Verification:

- All customers are subject to a vetting process to prevent access by bad actors.

4. Compliance through Upstream Providers

- Calls originating from our platform are routed through upstream providers that fully implement the STIR/SHAKEN authentication framework.
- - We verify that these providers are registered in the FCC Robocall Mitigation Database and comply with all applicable requirements.
- All our System are on 3CX

5. Monitoring and Reporting:

- Our systems actively monitor call traffic and automatically block calls that exhibit illegal patterns.
- We log all detected illegal robocall activities and report incidents as required.

Statement of Compliance

We certify that our robocall mitigation practices are consistent with the requirements of 47 CFR §64.6305.

Our organization adheres to all rules and regulations set forth by the FCC to prevent the origination of illegal robocalls.
